"GENTLEMEN OF THE COUNCIL,

"MR. SPEAKER, AND GENTLEMEN OF THE ASSEMBLY,

*"The safety and prosperity of this valuable island appear to have been so well secured, by the excellent provisions you have already made, since the commencement of the present war, that I am thereby enabled to encourage in you the hope, that the time necessary for the discharge of your public functions, at this our first meeting, need not be of long duration.*

*"I shall feel the most lively satisfaction, if, in the exercise of our mutual duties, my administration of the important trust with which his majesty has been graciously pleased to honour me, receives your liberal and confidential support.*

"MR. SPEAKER, AND GENTLEMEN OF THE ASSEMBLY,

*"The very sickly state of the British troops in this island, must have often occupied your attention: It is a subject which has deeply engaged mine since my arrival; I shall, therefore, take an early opportunity of submitting to you some arrangements respecting the soldiers, and their quarters, which have suggested themselves to my mind; and which, if adopted, will, I trust, be attended with the most salutary consequences. I rely, in the mean time, on your granting the usual supplies.*

"GENTLEMEN OF THE COUNCIL,

"MR. SPEAKER, AND GENTLEMEN OF THE ASSEMBLY,

*"It is with the greatest pleasure, that I congratulate you on the splendid successes of the British arms in Egypt: The late important victory in that country, over the choicest and most experienced troops of the enemy, is a glorious occurrence in the first annals of the United Kingdom.*

*"While under the proud enthusiasm which, upon this subject, you must feel, as a part of the nation, let me recall to your remembrance, as colonists, a subject for your gratitude. The strong squadron which was so recently and promptly sent to your assistance, when it was conceived that the island was in danger, furnishes a striking instance, among so many others, of his majesty's paternal solicitude for your welfare. I have no doubt that we feel a hearty concurrence in our sentiments of loyalty; and, as you must be sensible that the interests of this island are inseparable from those of Great-Britain, I indulge with pleasure in the hope, that you are equally disposed with myself, to co-operate in every measure which can conduce to the general benefit of the empire, and will tend to draw closer, the ties of affection and attachment to our sovereign, and the parent state."*

Mr. Speaker laid before the house, a letter he had received from the earl of Balcarres, which being read, was ordered to be entered, and is as follows:

“ SIR,

Spanish-Town, October 31st, 1801.

“ I have received, with the most profound gratitude and respect, the high and distinguished honour which the house of assembly has been pleased to confer upon me, by their resolution of the 29th instant.

“ If I have been so fortunate as to fulfil those important duties which his majesty had graciously entrusted to my care, I can only attribute my success, to the confidence which I have ever received from the house of assembly; and it is my greatest pride, at the painful moment of my departure, that I have, on this ground, obtained their favour and esteem.

“ Permit me, sir, to thank you, personally, for the kind and elegant manner in which you have communicated to me the resolution of the house.

“ I have the honour to be, with the highest respect, your most obedient humble servant,

“ BALCARRES.

“ Honourable the speaker, &amp;c. &amp;c. &amp;c.”

“ That the said road is of necessity carried along precipices, where it requires the utmost exertions to keep the passage open, so that the road is always dangerous, and frequently impassable :

A petition of the magistrates, freeholders, and other inhabitants, of the parish of Portland, was presented to the house, and read, setting forth,

Petition from Portland.

“ That, by the fifth clause of an act entitled, ‘ An act for encouraging white people to come over and become settlers in this island, and for the more easy and speedy settling the north-east part thereof,’ it is enacted, ‘ That, for the ease of all the inhabitants and people of the parish of Portland, there should be established in the town of Titchfield, a court of quarter-session and common pleas; the court of quarter-session to be held the second Thursday in January, April, July, and October, in each year, and the court of common pleas once every two months:’

“ That the said courts being held on different days, has rendered it burthenfome to the inhabitants, who are obliged to attend as justices and jurors, having eight courts instead of four in the year; whereas, were the courts held on one and the same day, it would become less burthenfome to the petitioners, and the business of the parish conducted with more ease to the jurors and suitors attending such courts:

“ That, from unusual falls of rain and frequency of floods, the said turnpike road has been very materially injured, and the bridge crossing the Rio-Cobre, on the said road, nearly destroyed:

from.

from the control, debts, or engagements, of any husband with whom she, the said Frances Dalzell, might intermarry; and that the receipt of the said Frances Dalzell alone, whether sole or covert, should be a sufficient discharge for all sums of money to be paid to her, by his said trustees, any or either of them; and, from and immediately after the death of the said Frances Dalzell, the said Gibson Dalzell did direct his said trustees to convey and assign the said moiety of his said real and personal estates in Jamaica, to and amongst the issue of the body of the said Frances Dalzell, living at the time of her death, their heirs, executors, administrators, and assigns, at such time or times, and in such shares and proportions, as the said Frances Dalzell should, by her last will and testament, in writing, direct or appoint; and, in default of such direction or appointment, then to convey and assign the said moiety of the said real and personal estates in Jamaica, to and amongst the issue of the body of the said Frances Dalzell, living at the time of her death, their respective heirs, executors, administrators, and assigns, in equal shares and proportions, as tenants in common: And, in case both his said son and daughter should happen to die without issue of their, or one of their, bodies living, at the time of their, or any one of their, death, then he, the said testator, did thereby devise and bequeath his said real and personal estates in Jamaica, to his said trustees, their several heirs, executors, administrators, and assigns, as tenants in common, and not as joint tenants:

And praying for relief.

Another from the same.

A petition of the freeholders, and other inhabitants, of the parish of Portland, was presented to the house, and read, setting forth,

"That the public road from Bath to Port-Antonio is rendered extremely difficult, by means of a very steep hill, called Break-Heart-Hill; that the grant of the last session has proved insufficient:

A petition of the freeholders, and other inhabitants, of the parish of Hanover, was presented to the house, and read, setting forth,

"That a new road has been laid out from Springfield, a new settled estate out of the woods, in the interior of the parish, as *per* diagram annexed, four miles of which passes through the lands of the late Richard Brissett, now in wood; that the executors of said Richard Brissett do not think themselves justified in assisting to make said road, by which a heavy expence falls on individuals improving the country:

George Mackenzie's petition.

"That an able negro, belonging to Thomas Rodon, was unfortunately killed by the blowing a rock, and the petitioner paid to the owner of said slave the sum of 200*l.* his value, as *per* receipt annexed:

"That the petitioner unceasingly continued his exertions, with a large gang of slaves, in making the said road; but, as much of it is formed out of rocky precipices, and on stone causeways, a great deal yet remains to be done, and, excepting one trifling instance, he has received no assistance whatever from his neighbours:

"That, from the damage done to said road, by the flood in June last year, he has been under the necessity of building strong mortar walls against Pindar's river, and removing innumerable large rocks from its bed, widening its channel, and in one place entirely altering its course, by turning it through a hill of entire rock; which, with other unforeseen difficulties, has occasioned the expence greatly to exceed any private advantage he can possibly derive from the same:

"That the very favourable report of the committee, in the last session, has induced the petitioner once more to press on the liberality of the house, hoping, that in an undertaking so extremely arduous, and so very beneficial to the public, it will not be thought unreasonable in requesting, for the last time, the aid and assistance of the house."

And praying for relief.

NOTE, *For receipt referred to see appendix, No. XIX.*

And a motion being made, that the said petition be referred to a select committee;

A debate thereon arising; and the question being put, it passed in the negative:

 " That the petitioners are unable to accomplish such an undertaking from their own funds."
- And praying for relief.
- Another from the same. A petition of sundry freeholders, and other inhabitants, of St. Thomas in the East, was presented to the house, and read, setting forth,  
 " That the grant of 200*l.* last session, towards making the road through the Whim, Glenmoy, and other plantations, together with nearly as much more of the petitioners own funds, have been faithfully worked out and expended, but has contributed to make only a mile and an half of said road:  
 " That two miles and upwards, through wood-land, to reach the lines of the Whim plantation, still remains, to complete the same."
- And praying for relief.
- Petition from St. George and Kingston. A petition of sundry freeholders of the parishes of St. George and Kingston, was presented to the house and read, setting forth,  
 " That

“ That a certain part of the interior mountains, in the parish of St. George, commencing northwardly, at the mouth of Bantima river, where the new road from Swift-River to Silver-Hill begins, and comprehended between East Spanish-River on the west, and Swift-River on the east, contain about 22 coffee settlements, most of them new ones, and whose number are yearly increasing :

“ That the petitioners have at present no communication, either with Buff Bay, where the church and court-house are erected, the muster-grounds, or with the central or leeward parts of the parish, or with the town of Kingston, except by a long circuitous dangerous road, passing two fordings of Swift-River, and a tedious ascent over an intervening hill :

“ That, in order to remedy these inconveniencies, a road, of which a diagram is annexed, has been lately laid out; which, when made, will be a short, safe, and direct communication, from the road leading to Guatimala, to the fording of East Spanish-River, at Clepftow, by which the fordings of Swift-River, and the hill above mentioned, will be avoided; but that it will be impossible, except in a series of years, to make the said new road of any essential service, without public aid.”

And praying for relief.

*Ordered,*

Leave to a member to petition council.

Then the house adjourned till to-morrow morning, nine of the clock.

Alexander Forbes's petition.

That the petitioner has long had the command of Accompong maroon-town, to which charge he has diligently attended; that the salary fixed by the legislature of this island, to the superintendent of said town, is very small, by reason every necessary of life hath considerably increased in price; notwithstanding which, the petitioner's salary remains as heretofore."

Petition from St. Thomas in the East,

Q

" That

" That the petitioners, under many difficulties and heavy expences, made settlements in the interior parts of this parish, upon Island-River, and its vicinity :

" That the making of good roads through the mountainous parts of the country, is attended with great labour and expence :

" That a track of a road has lately been made from Effex plantation to the town of Bath, as *per* diagram annexed ; which track, if carried into effect, would be the means of encouraging the settlement of a very extensive tract of valuable mountain land, in the interior of the country, extending up said Island-River, to the head of River-Grande, fit for the culture of coffee, &c.

" That, from pecuniary circumstances, the petitioners are unable to undertake the making the said road, without the aid of the house."

And praying for relief.

Petition from Portland.

A petition of the magistrates, vestry, freeholders, and other inhabitants, of Portland, was presented to the house, and read, setting forth,

And praying for relief.

Another from the same.

A petition of sundry freeholders of Portland, was presented to the house, and read, setting forth,

" That the public road of communication, from Bath to Port-Antonio, is rendered extremely dangerous, and frequently impassable, by means of three very bad fordings of the River-Grande ; that a very good and easy road may be made, from the Cunha Cunha road, through Seaman's Valley and Windsor estates, to join the new road for the alteration of Break-Heart-Hill, without crossing the River-Grande :

" That the grant of 200*l.* in the year 1798, has been carefully and faithfully worked out, but has proved very insufficient :

" That the parochial tax is totally inadequate to make the said road, in consequence of the small number of settlers :

" That if such road was completed, it would be the means of a large tract of uncultivated land being opened and settled."

And praying for relief.

Petition from St. Elizabeth.

A petition of sundry freeholders and inhabitants of St. Elizabeth, was presented to the house, and read, setting forth,

" That the road through the district of Nassau, in said parish, leading from the Mile-Gully road into the Eldersley road, for an extent of five miles, between Union and Vauxhall estates, has been much neglected until last session, when the house granted 200*l.* which has been worked out in the most eligible manner :

" That the said grant has been found insufficient ; that the said road leading through the interior of the country, is of great consequence to the public at large, as well as the surrounding small settlers, opening a communication from the Mile-Gully road towards Eldersley, Accompong, and Trelawny towns, and Montego-Bay ; that the road still remains in a situation almost impassable to travellers."

And praying for relief.

*Ordered,*

That the above four petitions be referred to the committee, appointed to appropriate the grant of 5000*l.* to each county, towards carrying on and completing such internal roads of communication, as may be necessary to encourage settlers to cultivate lands at a distance from the sea.

A petition

A petition of William Thomson, of the parish of St. Ann, planter, the guardian of Jane M'Dugald, an infant, and of Mary Elizabeth Bodle Thomson, formerly Mary Elizabeth Bodle M'Dugald, widow, now the wife of the said William Thomson, and mother of the said infant, was presented to the house, and read, setting forth,

Petition of W. and  
M. E. B. Thomson.

" That John M'Dugald, late of the parish of St. Ann, planter, deceased, was, in his life-time, and at the time of his death, seized and possessed of two tracts of land in the said parish, each containing three hundred acres, and of nine negroes; and, being so seized and possessed, duly made and published his last will and testament, in writing, bearing date the 8th day of January, which was in the year of our Lord 1789; and thereby, after mentioning that his wife was then pregnant, in case she should be delivered, within nine months, of a male child, he gave, devised, and bequeathed, unto such male child, the one half of his real and personal estate; and gave and bequeathed the other half of his estate, real and personal, to his two daughters, Mary Elizabeth M'Dugald and Hester M'Dugald, and their heirs forever, to be equally divided between them; and declared it to be his further will, that if his said wife should be delivered, within nine months after his decease, of a daughter, then all his estate, real and personal, should be divided between her and his two then surviving daughters, share and share alike, as in and by the said last will and testament, duly proved, and of record in the secretary's office of this island, reference being thereto had, will more fully appear:

" That the said John M'Dugald departed this life on or about the 10th day of January, in the said year of our Lord 1789, without altering or revoking his said will:

" That the child wherewith the petitioner, Mary Elizabeth Bodle Thomson, was entient, at the time of the decease of the said John M'Dugald, was born about six months after the decease of the said testator, and proved to be a daughter, now the said Jane M'Dugald, the ward of the petitioner, William Thomson:

" That the testator's daughters Mary Elizabeth M'Dugald and Hester M'Dugald, have both departed this life under age, and without issue, whereby the whole estate of the said John M'Dugald became, and is now, vested in the said Jane M'Dugald; subject, nevertheless, to the dower of the petitioner, Mary Elizabeth Bodle M'Dugald, therein:

" That the two tracts of land before mentioned were, at the time of the decease of the said testator, in a great measure uncultivated; and the same have so continued, by reason of the very small number of negroes which the said testator died possessed of, and which are now reduced by death to the number of eight only:

" That each of the said tracts of land is capable of being made a valuable settlement; but which cannot be at present effected, by reason of the want of a sufficient strength of negroes, and there-being no other funds or estate of the said testator, by which such deficiency can be supplied:

" That if the petitioners were enabled to dispose of one of the said tracts of land (for which they could readily obtain a purchaser, on advantageous terms), and to lay out the money in the purchase of slaves and stock, in the name of the said infant, for the cultivation of the remainder, it would not only make the same a valuable and permanently beneficial settlement, but would enable the petitioners to pay off certain debts against the estate of the said testator, the payment of which may otherwise be enforced by sale of some of the few remaining slaves of the said testator, to the great injury of the said infant; and, even if the petitioners were authorized to sell one or both of the said tracts of land, and to lay out the monies arising

arising therefrom in some good and effectual security, in the name of the said infant, it would be much more for her benefit, than keeping the said lands in the state the same now are; which, from the expences of quit-rents and taxes, are rather an incumbrance than a benefit to the said infant:

"That the petitioners are advised, that, by reason of the infancy of the said Jane McDugald, no sale can be made of the said lands, but under the authority, and by the direction, of the legislature of this island."

And praying for relief.

*Ordered,*

That the above petition be referred to Mr. Whitehorne, Mr. Grant, and Mr. Shand; that they inquire into the allegations therein set forth, and report the facts, with their opinion thereon, to the house.

And a motion being made, that the house do agree thereto;

The house divided:

The noes went forth:

“ That a track has been discovered and laid out (a diagram of which was presented to the house in 1798), which, when completed, would do away the necessity of crossing the river more than once, and open a safe and easy communication across the island, and troops might be marched, from the military stationed at Stoney-Hill, by a safe and easy route, into St. Mary and St. George, in a few hours; whereas, at present, many days would often be necessary to reach the same point, and at certain times the march would be impracticable :

“ That the sums granted have been faithfully worked and expended on the said track, but has proved inadequate to complete the same :

"That the said piece or parcel of mountain-land, is in wood and ruinate, and not in any state of cultivation, the petitioners, the said Christopher Sayle and Christiana Elizabeth Sayle, not having it in their power to cultivate and improve the same; and, from the accumulation of quit-rents and taxes, is becoming daily encumbered:

"That it would tend much to the benefit of all parties interested therein, if the said piece or parcel of mountain-land and premises were sold and disposed of, and the monies arising from such sale, laid out in the purchase of other real estate in this island, or invested in real or other securities; and that the estate so to be purchased, or the securities in which the same should be invested, should be settled to the same uses and purposes, in which the said piece or parcel of mountain-land and premises do now stand settled, under the said indenture, or deed of trust, of the 25th day of August, 1794:

"That your petitioners have been offered, and can obtain, the sum of 1250*l.* current money of Jamaica, for the said piece or parcel of mountain-land and premises, which is an advantageous purchase for the said land and premises, if a good title could be given for the same; but which your petitioners are advised, cannot be given, but by the authority of the legislature of this island."

"That the petitioner, under the prevailing scarcity and dearness of every kind of provisions, found the said sum of 1*s.* 3*d.* totally inadequate for the support of the said prisoners, and the sum of 2*s.* 6*d.* barely sufficient:

"That the petitioner pays a very considerable annual rent for the hire of said wharf, which, by reparation and negro labour, is greatly enhanced; and, notwithstanding he has suffered the soldiery, and all others attached to his majesty's service, for nearly two years, to transport their effects there, without molestation, he thinks it but reasonable that he should solicit compensation for the same."

"That the grants already made have been faithfully expended."

And praying for relief.

"That the said sum of 50*l.* has actually been worked out thereon; that, from the great length of road requisite to be made entirely new, viz. three miles and an half, in order considerably to shorten the distance, and to avoid the dangerous fordings of Cassava-River, the said sum has been found inadequate to the completion thereof:

"That the great ease, shortness, and safety, of said road, renders it of much importance to a great part of St. Mary's, St. Thomas in the Vale, and to the public at large."

And praying for relief.

A petition of sundry freeholders and inhabitants of St. Mary, was presented to the house, and read, setting forth,

And praying for relief.

Petition from Mayday Mountains.

A petition of sundry settlers on Mayday Mountain, in St. Elizabeth, was presented to the house, and read, setting forth,

"That the road leading through the district, called the New Colony, in said parish, from the Mile-Gully road into the interior of that country, for an extent of about seven miles (as the diagram annexed will more fully shew), is in a state almost impassable :

"That the said road will be found to be of great consequence to the parish at large, as well as the settlers in said colony, and also to the settlers further to the southward; as it will be the means of opening a communication between the Mile-Gully road and Mayday-hill road, through the interior of the country :

"That the said settlers have not heretofore had any assistance on said road, and are insufficient, from its mountainous situation, to make it passable; and further, that, should the road be made sufficient, it would be the means of making a great addition to the small number of subscribers, to settle the interior of said district."

And praying for relief.

*Ordered,*

That the above five petitions be referred to the committee, appointed to appropriate the grant of 5000*l.* to each county, towards carrying on and completing such internal roads of communication, as may be necessary to encourage settlers to cultivate lands at a distance from the sea.

"That the petitioners have lately settled coffee plantations, in the vicinity of the new road now making through Kellie's estate to Arthur's Seat, in the said parish, with intention of using the same, as soon as it was rendered passable for carriages :

"That, from the extreme difficulty of the undertaking, the said road, notwithstanding the spirited exertions of an individual most interested, still remains in a very unfinished state; and, from the peculiar hardships attending new settlements out of wood-land, the petitioners have not been able to render any assistance whatever, in forming the said road :

"That the petitioners have, this year, made considerable crops of coffee, which it is hardly possible for them to convey to market, through some of the worst roads in the island."

And praying relief.

"That the petitioner hath caused his said several reputed children to be baptized and educated in the principles of the Christian religion, and in the communion of the church of England, as by law established, and hath brought them up in a decent and reputable manner:

"That the petitioner has it in his power to bestow, on his said several reputed children, such fortune as will raise them considerably above the level of people of colour in general; but, from the unfortunate circumstances of their birth, they are subject and liable to the same rules of government, and to the same pains and penalties, as free negroes and mulattoes are, who have not property or education."

And praying for relief.

*Ordered,*

That the said petition be referred to Mr. Quier, Mr. Shand, and Mr. Ross; that they inquire into the allegations therein set forth, and report the facts, with their opinion thereon, to the house.

Two messages from his honour the lieutenant-governor, by his secretary, as follows:

*First message.*

"MR. SPEAKER,

Message from his honour,

"*I am commanded by the lieutenant-governor to lay before the house, some proposals for an arrangement of quarters for the troops in this island, to which his honour most earnestly requests the immediate attention and consideration of the house.*"

with proposals for quartering the troops; and,

PROPOSALS for an arrangement of QUARTERS for the preservation of the HEALTH of the TROOPS; for their comfort, &c. &c.

1<sup>st</sup>, That a barrack should be built at Burke's, on the east side of the Rio-Grande, half way between Bath and Port-Antonio, to contain 100 men, with officers in proportion.

2<sup>d</sup>, That a barrack should be built in the north part of the island (suppose near Charles-Town) to contain 300 men, with officers, &c. &c.

3<sup>d</sup>, That another barrack should be built near the Rio-Bueno (suppose on Quathie-River) in the Black-Grounds, to contain 200 men, &c. &c.

4<sup>th</sup>, That a barrack near Manchioneal should be built, to contain 200 men, &c.

5<sup>th</sup>, That the barracks at Stoney-Hill should be made to contain 500 men, &c.

6<sup>th</sup>, That the barracks at Trelawny-Town should be made to contain 300 men, &c.

7<sup>th</sup>, That the barracks at Port-Royal and Fort-Augusta should be repaired, and made to contain; the first, 300 men, and the second, 500 men, &c. &c.

8<sup>th</sup>, That proper hospitals should be built, at the before mentioned places, under the direction of the surgeon of the forces, capable of containing a proportionate number of sick who may be brought from detached quarters.

N. B. Up-Park-Camp barracks will contain 1200 men, with officers in proportion, and will be placed upon a similar footing with those in Great-Britain and Ireland, giving the soldier the necessary comforts and conveniencies for the preservation of his health.

9<sup>th</sup>, The other barracks in the island being, in general, in situations inimical to the health of the troops, or being convalescent quarters, capable of containing only a few men each, would then be occupied by detachments from the nearest head-quarters, which would be so situated as to relieve any sick men when required: The vacant room, not occupied by the detachment, should be converted to the use of sick men, incapable of being removed to the head-quarters, and other necessary purposes.

10<sup>th</sup>, It is proposed, that the public of Jamaica should place their barracks upon a similar

a similar footing with those in Up-Park-Camp; which would materially contribute to the health and comfort of the soldiers, by enabling them to lie warm, and to mess regularly; no bedding or cooking utensils being at present allowed by the island.

N. B. The deputy barrack-masters have been ordered to reside in, and to inspect, the barracks constantly; and the commander in chief is determined to make the respective corps pay for any damage which may be done to them, beyond the usual wear and tear.

By these arrangements, he is confident, that the troops would be infinitely healthier than they ever have been in this climate, and full as much so as the nature of it would admit.

The following is a detail of the BARRACKS, and the numbers which it is proposed each should contain:

a detail of barracks, and numbers they should contain.

The four new barracks proposed to be built, near Charles-Town, Burke's, Manchioneal, and Quashie-River, are not merely calculated to preserve the health of the troops, but, from their situations, to guard against invasion and insurrection; which, in the present state of St. Domingo, are much to be apprehended: And the commander in chief hopes, that the legislature of Jamaica will not, under such circumstances, consider so much the expence of the undertaking, as the utility of it, in every point of view:

The island engineer has been consulted upon the eligibility of the situations; and the commander in chief, in making his tour of the island, will pay particular attention to these points: Provided this proposal is approved of, the roads of communication

munication between those places, and the sea-coast, should be made, in general, open and easy; the necessity of any expence for fortifications, &c. would, by these means, be rendered altogether unnecessary, it being infinitely preferable to have troops well stationed for defence, than to trust to works for that purpose; and the militia of the island, added to the force so stationed, would, at all times, secure the colony from almost any attempt that could be made to disturb its tranquillity.

G. NUGENT.

King's house, November 27th, 1801.

Ordered,

Commanding officer of the 4th battalion of the 60th regiment, contingent account for the hire of a cart, three mules, and a negro, to supply the regiment at Stoney-Hill with water, from 10th November, 1800, to 10th November, 1801, and for sundry expences incurred on account of the said regiment	388 14 2
William Gillmour, captain of Fort-Brunswick, for pay from 24th December, 1800, to 30th November, 1801; for lodging-money and the usual allowance of pioneers for the same period; and 50l. for the hire of a white man to take care of the magazine (which charge the committee submit ought to be disallowed in future; the committee have deducted twenty-four days pay, and an overcharge of time and rate for negroes, amounting to 18l. 10s. and also 5l. an error in calculation)	269 3 4
Matthew Atkinson, island secretary, for recording, examining, and attesting, the laws of this island, and for sundry other business performed in his office	616 15 0

The committee are of opinion, that the petition of John Maxwell, captain of the Apostles-Battery, for pay and allowance of a boat and negroes, remaining due him in the years 1798 and 1799, should be denied; and that the account of assistant surgeon Doughty, for expences incurred by him in joining the 6th battalion of the 60th regiment, at Up-Park-Camp, from Montego-Bay, should also be denied, the same not being attested in the regular form:

The committee are of opinion, that the sum of 1500*l.* should be paid to the commissioners of forts and fortifications, the sum of 2000*l.* voted to that board last session, for supplying the troops with fire-wood, having fallen short to that amount, as appears from vouchers examined by the committee.

Report from committee of accounts.

Mr. Shaw, from the same committee, further reported as follows:

The committee have taken into consideration the account of Alexander Aikman, amounting to 4559*l.* 16*s.* 3*d.*; in this account there are several charges which want explanation, which cannot be satisfactorily obtained at present; they therefore beg leave to recommend to the house, that the sum of 4000*l.* should be paid, by way of impress, and that the further consideration of the account be delayed until the next session.

Report from committee of Botanic Gardens.

Mr. Murphy, from the committee, to examine the state and condition of the Botanic Garden in Liguanea, reported,

That they have attended there for that purpose, and found the garden in the best order and condition; they also examined into the state of the negroes belonging to it, which they found, in number, to be forty-one; and, upon making a particular estimate and valuation of them, according to the best of their judgment, they found them to be worth 4098*l.* and that there is a considerable increase in their value: The committee had the satisfaction of seeing that invaluable plant, called the Zezegery, in a very flourishing condition, and took the opportunity of trying how far it answered the description given of it, upon bruising a leaf in water, which was found to be perfectly correct; and the committee having come to the following resolutions, beg leave to submit them to the consideration of the house:

“Resolved, that the thanks of this committee are due, in an eminent degree, to sir Simon Haughton Clarke, baronet, for his attention to the welfare and interest of this island, in transmitting the seeds of the Zezegery, which have been received by the hands of Mr. William Mitchell; and, having happily succeeded, has been found to answer the description given of its efficacy and virtues, by captain Huxley, of the 2d West-India regiment, in his letter to sir Simon; and which the committee consider as an invaluable acquisition.

“Resolved, that the thanks of this committee be given to the right honourable Lord Carrington, president of the board of agriculture, for his attention to the interest of this island, in transmitting the selection of valuable seeds mentioned to have been procured from the East-Indies, which have been carefully deposited in the hands of the island botanist, with the descriptions and instructions sent out, in the hope of their successful cultivation.

“Resolved, that Mr. William Mitchell be requested to communicate the above resolutions, in the most acceptable manner.”

The committee think it their duty to represent to the house, their opinion of the great utility of this establishment, and the prospect afforded, by means of it, to procure, from various parts of the world, particularly from the East-Indies, such exotics and useful plants, as may prove highly beneficial to this island: They find, from Mr. Wiles's correspondence, and in return for various plants he has furnished to botanical institutions, that the garden is likely to make some valuable acquisitions:

The

The committee take this opportunity of expressing their approbation of the general conduct of Mr. Wiles, and their opinion of his being a proper person to be continued in his present appointment, and also to have the superintendence of the Botanic Garden, and the nursery, at Bath:

The committee find, that Mr. Wiles has distributed 1429 plants, of various descriptions, for cultivation, in the course of the present year; and, having examined the account of the contingent expences of the Botanic Garden, they find, that after giving credit for some coffee sold, there remains a balance of 231*l.* 8*s.* 5*d.* still unpaid, which they recommend to the house to provide for: The committee, finding that the cultivation of coffee is by no means advisable at this place, have directed Mr. Wiles to employ the labour of the negroes (not necessary for the care of the garden) in jobbing, for the benefit of the establishment; by which means the expences attending it will be more than defrayed, and the coffee already established may be sufficiently attended to:

The committee recommend to the house, the propriety of instructing the committee of correspondence to write to the agent, for the purpose of obtaining plants of the nutmeg, the true cinnamon, the clove, and other valuable productions of the East:

*Resolved,*

That the house do agree to the report:

*Ordered,*

That the above three reports be referred to the committee of the whole house, to inquire into and take further into consideration the state of the island.

Mr Christie, from the committee, appointed to examine and state all accounts outstanding, incurred in consequence of the late martial law, reported as follows:

Report from martial law committee.

That they have examined the account of Athmeade and Clark, amounting to 18*l.* 12*s.* and are of opinion, that it is for sundries which ought to be paid out of the regimental fund, and have rejected the same:

They have also examined the account of messieurs Bolt and Higgins, which amounts to 106*l.* 6*s.* 2*d.*; but the charges are of a nature improper, and ought to have been paid by the pay-bills of the men, or by the officers themselves; and have therefore rejected said account:

*Resolved,*

That the house do agree to the report.

Then the house adjourned for one quarter of an hour:

Report from board  
of works,

Mr. L. Cuthbert, from the commissioners of the board of works, reported,

That the different repairs directed by the house last session, to be made to the several public buildings and barracks, are all completed, with the exception of Stoney-Hill; the estimate for which having very much exceeded the sum allotted by the house for that purpose, the commissioners judged it expedient to postpone the same until next year:

That the sum remaining in the hands of the receiver-general, on the 4th instant, amounted to 8172*l.* 3*s.* 4½*d.*: This sum is subject to a deduction of 6208*l.* 3*s.* for the balance to the contractors for erecting a new goal for the county of Surrey, and for repairing the barracks at the maroon-town, leaving the sum of 1964*l.* 0*s.* 4½*d.* applicable to the order of the board:

That the sub-committees, appointed to visit the different public buildings and barracks under the jurisdiction of the board, having reported that the following repairs are necessary, the commissioners submit the same to the consideration of the house:

#### SPANISH-TOWN.

That all the old buildings standing on the north side of the parade in the barrack-yard, should be pulled down, and the materials sold, and also the building contiguous to the gate leading into the barrack-yard: That a small guard-house and cook-rooms should be built, in such situations as the commander in chief may approve, there being at present no guard-house, and the cook-rooms being situated at too great a distance from the barrack: The bake-house likewise requires to be removed to a more eligible situation, the same at present standing immediately in front of the barrack: The expence attending these proposed alterations and repairs is estimated at 1200*l.*

#### KING'S HOUSE.

The floor in the gallery requires to be new laid; the doors of the coach-house to be removed, and a gutter to be made, to convey the water from the yard into the street; some other trifling repairs are also necessary in several parts of the buildings; the estimate for these several articles, including the new laundry and negro-houses, already ordered by the house to be erected, amounts to the sum of 1400*l.*

#### PUBLIC BUILDINGS.

The old public buildings stand in need of some temporary repairs, and a very considerable expence will be incurred in building a dwarf wall for the iron railing, ordered by the house last session, to inclose the square in front of the king's house, and the south-east wing of lord Rodney's temple, as also the temple itself, and for putting up the said railing, which it is supposed will amount to 1100*l.*

#### PORT-ROYAL.

The inner square of the mens barracks, and two huts, want to be new shingled, and the shingles on the hospitals adjoining to the bake-house to be repaired: The floor on the provision store requires to be new paved, and the brick-work on the out-side of the bake-house; the oven and mens fire-place also want repairing; a number of jealousies, door-frames, window-frames, and shutters, door-bars, locks, bolts, and hinges, want to be repaired, throughout the barracks, hospital, and bake-house;

house; and sundry articles of barrack furniture: The sum required for these repairs, is estimated at 600*l*.

#### FORT-AUGUSTA.

The captain's house wants five sash-windows in the back part, and sundry small repairs: The new officers barrack requires to be pointed, and the lieutenant's house to be painted: 600*l*.

#### SAVANNA-LA-MAR.

The barracks at Savanna-la-Mar will require the sum of 500*l*. to put the same into complete repair.

#### TWELVE-APOSTLES.

The officers house wants painting, and some trifling repairs: The crane-house is in bad order; and the wharf requires to be lengthened: 200*l*.

#### FORT-CLARENCE.

Some trifling repairs are wanting at Fort-Clarence, the expence attending which will not exceed 150*l*.

#### FORT-DUNDAS.

Very considerable and extensive repairs are required at Fort-Dundas, which are estimated at 1500*l*.

#### PORT-ANTONIO.

A new kitchen is wanted for the new barrack at Port-Antonio, and some trifling repairs, which are estimated at 500*l*.

#### MAROON-TOWN.

Some repairs will be wanted for the barrack at Montego-Bay, and also some at the Maroon-Town; the latter post remains to be provided with barrack-furniture; the expence of which is estimated at 700*l*.

#### STONEY-HILL.

The soldiers barrack leaks in several places; repairs are wanted at the officers barrack and mess-room; the doors, jealousies, and window-shutters want mending: A new cook-room, and necessary, and furniture for the officers apartments, there having never been any supplied.

The old barrack is in a state of decay, and the commissioners strongly recommend to the house to authorize them to treat for the sale of it, and a small part of the land contiguous thereto; the situation being extremely unhealthy, and at much too great a distance from the large barrack: The commissioners are also of opinion, that the huts built by the soldiers do not answer the purpose for which they were intended, and the island ought to be relieved from the burthen of keeping them up: Should the house concur in opinion with the board, as to the expediency of condemning, and ordering for sale, the old barrack, and discontinuing the annual charge of keeping the huts in repair, it will be necessary that a barrack should be built, to contain 200 men, on such spot as the commander in chief shall approve, to afford quarters for the number of troops which his honour proposes to station at this post: The expence of the different repairs, and the building the new barrack, is estimated at 3600*l*.

#### KINGSTON.

The gaol ordered by the house to be erected in the county of Surrey, is in a state of forwardness; and it is proposed, that another story should be added to that part of the building allotted to persons confined for debt, which will occasion an additional expence of 1500*l*.

#### KINGSTON BARRACK.

The barrack stands in need of sundry repairs, which are estimated at 500*l*.

The

The commissioners beg leave to state to the house, that it appears, by a petition presented to the board on the 6th March last, by the reverend Robert Stanton Woodham, "That, on or about the 12th of June, 1792, Mr. Woodham agreed to lease, from two to five years certain, premises in the town of St. Jago de la Vega, to the commissioners of forts and fortifications, at an annual rent of 50*l*.; it being stipulated, that the said premises should be delivered up to him, at the expiration of that period, in the same good order and condition in which they were received (the public being allowed to remove and carry away the materials of all such temporary buildings as might be placed there, in the intermediate time); and that, shortly after this, the dwelling-house and out-offices of Mr. Woodham were taken down, without his privity and consent, by the surveyor of public works, and a riding-school erected, for the use of his majesty's 20th regiment of light dragoons."

In order to gain complete information as to the value of the land and buildings in question, the board, after having referred the subject to a special committee, examined Mr. Pitcairn, on oath, who was the contractor employed in pulling down the said buildings, and erecting thereon the riding school for the use of the 20th light dragoons; and he having given it as his opinion, that the said land and buildings were worth 1000*l*. the commissioners recommend to the house, to authorize them to purchase the said land of Mr. Woodham, who is desirous of selling it, at the price proposed by Mr. Pitcairn.

The commissioners have annexed to this report, a form of returns which the barrack-master-general proposes to send to his different deputies, and which the board highly approve of.

The commissioners have also annexed an estimate of the different articles of public works submitted, in this report, to the consideration of the house, which amounts to 14,050*l*.; and they beg leave to recommend to the house, to grant to their order, the sum of 15,000*l*.; which, with the balance remaining in hand, after fulfilling the several engagements for public work already entered into, will leave at the disposal of the commissioners, the sum of 2914*l*. 0*s*. 4*d*. to answer any unforeseen calls which may be made upon them, in the course of the ensuing year.

[Circular.]

*Ordered,*

That the above report be referred to the committee of the whole house, to inquire into and take further into consideration the state of the island.

Mr. Christie, from the committee, appointed to examine and state all accounts outstanding, incurred in consequence of the late martial law, reported,

Report from martial law committee.

That they have examined the account of Michael Hunt, for medicines, labour, and horse-shoeing, for a detachment of the 20th light dragoon, commanded by captain Smith, amounting to 62*l.* 3*s.* 9*d.*; and are of opinion, that the charge for horse-shoeing ought to be paid by the regiment; the other part of the charge belongs to the article of marches and contingencies, for which there appears to be no particular fund provided, and ought also to be borne by the regiment; they have therefore rejected it.

They have also examined the account of John Paris, for supplying the same detachment with grass and provisions, amounting to 1*l.*; which is exactly in the same predicament with the preceding account, and ought to be rejected.

They have also examined the account of John Christie, for supplying two thousand bullets, and two thousand gun-flints, amounting to 11*l.* 1*s.*; but it not being attested by any officer, and it not appearing to whom those articles were furnished, or by whose order, they have disallowed it.

*Resolved,*

That the house do agree to the report.

The house, according to order, resolved itself into a committee of the whole house, to inquire into and take further into consideration the state of the island:

*assembly of Jamaica,*

"MOST GRACIOUS SOVEREIGN,

"We, your majesty's dutiful and loyal subjects, the assembly of your majesty's island of Jamaica, impressed with sentiments of the warmest affection and attachment to your majesty's person, and of gratitude for the many blessings we have enjoyed under your majesty's mild and parental reign, and conscious that your majesty is always graciously disposed to hear, and to redress, any grievances which may afflict your faithful subjects, feel ourselves impelled, for self preservation, to lay at the foot of your majesty's throne, our humble representation of the impending evil which disturbs our peace of mind and security: We, therefore, with due humility, beg leave to state to your majesty, that not only contrary to the unanimous sentiments and wishes, and repeated representations, but in direct opposition to the well grounded fears and apprehensions of this colony, there is now stationed in this island a regiment of negro soldiers, styled the 2d West-India regiment, a description of military force which we consider to be incompatible with our safety, and pregnant with the most fatal calamities to this country: So circumstanced, we resort to your majesty's well known paternal care and solicitude for our welfare, and most earnestly pray and beseech your majesty, that your majesty would be graciously pleased to order the removal of that regiment, from this your majesty's island; which measure, alone, can enable us to participate with all the other subjects of your majesty's empire, in the blessings of peace, now happily restored to them."

KEAN OSBORN, Speaker.

Veneris, 12<sup>o</sup> die Decembris, 1801.

Prayers. ORDERED, That the following message be sent to his honour the lieutenant-governor:

"MAY IT PLEASE YOUR HONOUR,

"We are ordered by the house to wait upon your honour, and to acquaint you, that, by information from the late lieutenant-governor, sent to the house on the 6th December, 1799, it appears that the board of police at Port-Royal was established on the 1st September, 1798, and that the expence of the establishment amounted to the sum of 981l. 5s. per annum:

Message to his honour, respecting board of police at Port-Royal.

"That the house did, by two several resolutions, on the 9th March, 1799, and on the 14th February, 1800, provide the sums of 500l. and 481l. 5s. amounting to 981l. 5s. for one complete year, ending 1st September, 1799; and, by two other resolutions of 14th February, 1800, and 13th March, 1801, did provide the sums of 490l. 12s. 6d. and 491l. amounting to 981l. 12s. 6d. for one other year, ending 1st September, 1800; and that the house have, this session, provided the further sum of 588l. 11s. 6 $\frac{1}{2}$ d. and 341l. 13s. 5 $\frac{1}{2}$ d. amounting to 931l. 5s. for one year, ending 1st September last; which includes the sum of 464l. 10s. paid in advance by the receiver-general, and disallowing 50l. for lodging-money to lieutenant-colonel Steheelin, who receives the same as a lieutenant-colonel of the royal artillery:

"And the house have further provided the sum of 462l. 5s. to defray the expence of the establishment of that board to 1st March next."

Mr. Perry, from the commissioners appointed by law, for stating and settling the public accounts, reported,

Report from commissioners of public accounts.

That the commissioners beg leave to present to the house, their estimate of the ways

ways and means of providing for the public expences and contingent charges of government for the ensuing year, grounded upon the usual produce of the taxes, with due attention to the probable result of such alterations as have been made in the laws passed this session; they have only to observe, that finding it impossible to form a judgment of the probable income of the new deficiency bill, the house must consider their estimate of it as merely imaginary.

The commissioners present their usual statements of the sums received under the several money-bills, during the four quarters, ending the 30th of September last; an account of the debts due by the public of Jamaica, for the payment of which the balance of cash in the receiver general's hands on that day was applicable; an account of the contingent expences of the year 1802, under various laws; and, a list of the grants passed this session by the rum, deficiency, and poll-tax bills; from all which it will appear, that the estimate of the income will not only defray the expence, but enable the commissioners to authorize the receiver-general to pay off immediately 4000*l*. principal of the 10 *per cent.* papers not yet exchanged (so as to leave the debt of the island at the sum of 360,000*l*.) and to call in and discharge, during the course of the year, to the extent of about 30,000*l*. principal of the 8 *per cents.* which payments are accordingly stated amongst the sums provided for: They congratulate the house upon this commencement of the reduction of the island debt, without an increase of taxes, and look to the accomplishment of this object, as the first step towards a diminution of them.

The commissioners find, that, from the time of the arrival of the 2<sup>d</sup> West-India regiment, the engagement of this country to provide for the pay of the 1<sup>st</sup> battalion of the 60th regiment, having become null, there remains a balance of 20,514*l*. 13*s*. 5*d*. of that fund, which they recommend to the house to resume, together with the sum of 7000*l*. provided last session for the purchase of horses for the 20th light dragoons, which has not been called for, and the sum of 1120*l*. remaining unapplied of a grant for the use of the committee of correspondence; which several sums, they submit, that the receiver-general ought to be directed, by law, to pass to the credit of the public.

The commissioners have annexed a list of the debts due by the collecting constables on the rolls of the annual funds, together with a list of balances due by them for quit-rents and arrears; to which is added, a copy of the examinations of the collecting constables, taken before them, under the order of the house; from these documents it will appear, that a considerable sum of the debts due to the country must inevitably prove bad; the commissioners have therefore directed, that such of them as are considered desperate, to the amount of above 14,000*l*. shall be withdrawn from the list of effective debts: They have also given directions to the solicitor of the crown, to proceed against various churchwardens and deputy-marshals; from whom it appears, that several thousand pounds are due for monies in their hands, on account of the proceeds of negroes convicted and sold for transportation, under the laws of the island.

Personally appeared before me William Paterfon, of the parish of Kingston, wharfinger, and made oath, that the above account is just and true, to the best of his knowledge and belief.

W. PATERSON.

Sworn before me, this 27th November, 1801.

PETER DOUGLAS.

Port-Royal, 26th November, 1801.

Mr. William Paterfon having made application to me, I do hereby certify to the honourable house of assembly, that the officers and market-boats, which I contract to supply for the use of Fort-Augusta, do constantly land and ship their stores at his wharf; that the reason they do not frequent the ordnance wharf is, on account of the shipping surrounding it so much with their different warps and cables, that when the sea-breeze sets in, it would be very difficult, and attended with great danger, either to approach or leave the wharf; that he has several times applied to me, as owner of the boats, for wharfage, which I have always refused, not holding myself liable to any such charge.

JOHN BRAILSFORD.

I certify, that when I commanded at Fort-Augusta, the market-boats always came to Mr. Paterfon's wharf, for the reasons above stated.

ROBERT ROLLO GILLESPIE, lieutenant-colonel 20th dragons.

I certify the above.

CLOT. DOBBIN, captain Fort-Augusta.

I do hereby certify, that for the reasons herein mentioned, the market-boat and boats employed by the 69th regiment, when stationed at Port-Royal and Fort-Augusta, have constantly come to Mr. Paterfon's wharf, free of charge.

J. R. COATES, captain commanding the 69th regiment.
